What people need to know is that this servo has been copied by Chinese manufactures and sold on ebay for a fraction of the cost of the original. The first payment is charged to your credit card when your order is invoiced. The originals are quite smooth. Servo motors are the most used motor type in robot technologies, but they are also used in RC (Radio Control) applications. RC Servo Motors were first used in remote control model vehicles. For seller-fulfilled items from Fine Art category, the sellers need to be informed of the damage / defect within 10 days of delivery. I had a major crash of my 30 size heli because of this servo. Also use the copies in on-road without any issues but not as reliable as the original. The return timelines for seller-fulfilled items sold on Amazon.in are equivalent to the return timelines mentioned above for items fulfilled by Amazon.
